Very good article. Thanks for sharing.

I have a library of articles on PFC now. I am beginning to see similarities and overlap. They all borrow from each other.

Hey btw- I invited Arcadis to come to Augusta to give us a full day seminar about characterization and remediation. They included 2 hours on PFC and some research they did in Europe. It will be on September 14th here at the DEP. David Strainge and Mike Quinlan are coming. I would love to have you and Bill come over as well. I know it would be a long day for you but if you could give it a try it would be awesome.
